

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to Bank of New York Mellon. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to Bank of New York Mellon must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 15th of the month following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

<sup>1.</sup> Includes second mortgage settlement

<sup>2.</sup> The original Q4 Performance Report showed Cumulative Assistance Provided to Date of \$1,510,656.00. This differed from the Q4 Financial Report by \$36,043.00, due to an incorrect calculation of participant (borrower) contributions collected prior to November 2011 in addition to a small (\$72) administrative expense recording error. This revised Q4 Performance Report reflects the updated corrected information included in the Q4 Financial Report.

<sup>3.</sup> The cumulative amount on the Q3 Performance Report showed \$376,011.56, which was \$365.44 less than the actual reconciled amount. The reconciled difference accounts for unrecorded borrower insurance payments as well as refunds from participating servicers recorded but not received.

<sup>4.</sup> Borrower still owns home

<sup>5.</sup> Please note that percentages for the cumulative column of the Program Intake/Evaluation section will not sum to 100%, as they exclude the in-process applications
